

ENGINEERING & FABRICATION

Checkpoint Fabrication (CPFAB) is a turnkey design and fabrication company providing rapid, reliable, high quality projects from the point of conceptual design through finished, tested product. CPFAB was formed by CheckPoint to satisfy CheckPoint's requirements for packages and tanks, and also to provide fabrication services for our customers. Located in Marrero, Louisiana in the former CheckPoint Headquarters facilities, we design and fabricate metal structures used in a variety of industries and markets. We specialize in customized stainless steel and aluminum products. CPFAB has the capability to design and fabricate a variety of components used in today's market place.

Our in-house capabilities include plasma cutting, mechanical shearing, forming, and welding, as well as assembly & testing of production packages including swaged (low pressure) and coned (high pressure) tubing & fitting of complex control panels. We will work off customer-supplied drawings to their exact specification or work with the client at the design stage.

We also offer precision laser cutting of complex shapes and panel boards via a strategic alliance with our local provider.

MISSION

- Design and produce to the highest quality standard equal to and consistent with CheckPoint's pumps and packages
- Deliver on schedule
- Communicate clearly and timely with our customers to ensure we are meeting or exceeding their expectations

▶ O&G & MARINE

- Instrumentation panels
- Control panels
- Pressure Test Packages
- Weatherproof enclosures
- Chemical injection skids
- Wellhead control panels
- Ship hull galley liners
- Fuel tanks
- Gang boxes
- Offshore baskets
- Chemical day tanks
- Large tanks up to 60 bbls
- Chemical tank bunds/containment vessels
- Baffles
- Hose/cable clamps
- Pipe bulkhead plates
- Battery enclosures
- Tool boxes

▶ INDUSTRIAL MANUFACTURING

- Man-lift cages
- Safety platforms
- Stairways
- Handrails
- Holding/storage racks
- Work tables

▶ RESIDENTIAL & RECREATIONAL

- Cookers/smokers/grills
- Boilers
- Utility tables
- Racks

30BBL SUCTION TANK

316SS UTILITY TABLE

2-POINT PNEUMATIC CHEMICAL INJECTION PACKAGE WITH 550 GALLON TANK

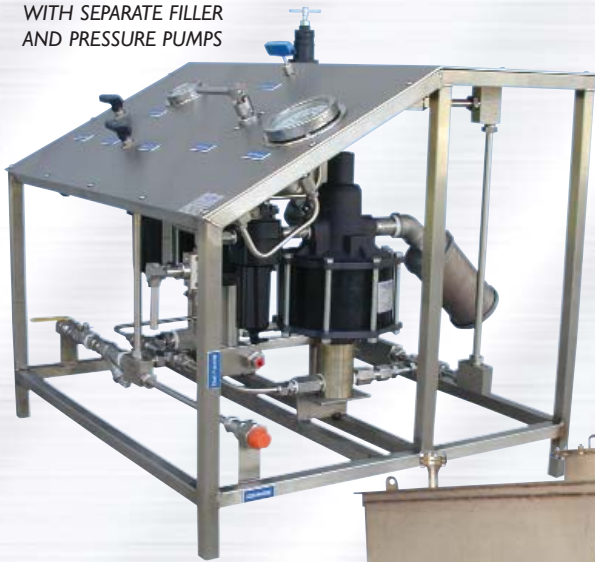

WEATHERPROOF 316SS ENCLOSURE

ENGINEERING & FABRICATION

PRESSURE TEST PACKAGE
WITH SEPARATE FILLER
AND PRESSURE PUMPS

INDUSTRIAL STAIRWAY

8-POINT PNEUMATIC CHEMICAL
INJECTION PACKAGE WITH TANK

PRESS BRAKE

SHEAR

PRESS BRAKE

Masteel CNC Hydraulic Synchronized Press Brake
Model MBHA 12280 280 Ton Capacity,
12' Overall, 10'-2" Between Frame
Siemens TP-700 CNC Control

SHEAR

Masteel CNC Hydraulic Swing Beam Plate Shear
Model MSH 12500 Capacity Mild Steel 12' X 1/2"
Equipped with Siemens Programmable Logic controller
and CNC back gauge control

IRONWORKER

Uni-Hydro 66-24 Hydraulic Iron worker
Punching Capacity 66 Ton 24" Bar Shear
6 X 6 X 3/8" Angle Shear, 4 X 4 Coper Notcher
